15. Multidisciplinary / interdisciplinary

Awareness sessions were organized regarding the New Education Policy, and how all academic institutions will either have autonomy to offer different courses based on the specializations in the different disciplines concerned or be asked to collaborate with nearby institutions according to their specialties and brand positioning, and as a result how the students would get the freedom of students to choose their courses and to complete their academic journey opting the facility of multiple entry and exit as per New Education Policy and Academic Bank of Credit. Therefore, Multidisciplinary/Inter-disciplinary programmes are to be offered in all institutions encompassing the interests of the students.

16. Academic bank of credits (ABC):

The sessions were organized to give awareness on Academic Bank of Credit to all the members of faculty. The members of faculty got insights as how the students could select the different institutions to study the different courses and complete their academic programmes by earning respective credits for different courses and transfer the earned credits across the educational institutions. Finally, the students will be entitled to receive the diploma/degree certificates in the core areas based on the courses completed if the specialization of 60% and above

17. Skill development:

Skill development is a crucial aspect of higher education, and the curriculum of many programmes reflects this. Typically, skill-based courses are offered to students from their third semester to their sixth semester. This allows them to develop and hone their abilities in various fields. Furthermore, universities and departments provide placement training programmes to help students secure positions in prestigious organizations. Departments often initiate measures to enhance students' skills in response to industrial requirements. They do this through a combination of in-house training, industrial visits, and hands-on training. By taking such initiatives, universities and departments aim to equip students with the skills they need to succeed in their careers.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

The integration of technology and education has revolutionized the way people learn, and online courses have played a significant role in this transformation. Faculty members and students alike have taken advantage of online platforms such as Coursera to complete courses and gain knowledge. These online courses have enabled cross-cultural learning, allowing participants from around the world to share their perspectives and insights. The knowledge and advancements gained from such online courses have been disseminated to other members of faculty and students, creating opportunities for peer-learning. This sharing of knowledge has opened doors for innovative and collaborative projects, enhancing the overall quality of education and helping to prepare students for the demands of a rapidly changing world.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

As an affiliated institution of Periyar University, the college follows the Choice Based Credit System (CBCS) pattern of syllabi prescribed by the parent university. In the academic year 2021-2022, Outcome Based Education (OBE) followed at the teaching-learning level. This approach included program educational objectives, program specific outcomes, program outcomes, and course outcomes. To ensure effective delivery of each course, the faculty members planned their lessons well in advance, using various teaching methods appropriate to the course topics, student needs, time constraints, and desired skill development.

The OBE content was displayed on the college website and shared with faculty and students. Program outcomes and course outcomes were compared, and the relationships between them were evaluated with scaling levels of high, medium, and low. As an affiliated institution, the college evaluated the outcomes of the adopted curriculum designed by the university. The delivery of the curriculum was facilitated using appropriate teaching-learning methodologies and tools such as PPTs, videos, quizzes, games, brainstorming, mind mapping, panel discussions, and more. This ensured that students received a comprehensive education that aligned with industry requirements and standards.

20.Distance education/online education:

Being an affiliated institution only regular UG, PG and Research programmes are offered and hence no distance education programmes/courses were offered during the year 2021-2022. However,

the courses of various programmes were taught in this year also using both offline and online modes based on the content of the different courses. The virtual learning / online education mode encouraged the students to learn easily and lively. The teaching-learning timing also minimized for both members of faculty and students due to adaptation of blended learning method.

2.5 - Evaluation Process and Reforms	

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

Two internal assessments and a model exam were conducted in both the semesters in this year as per norms. First internal assessment commenced on 20.09.2021 and ended on 28.09.2021. The portions for the same were the first two units. In the odd semester, first internal test was conducted at the mid October, second internal in November and model examination in November. The second internal assessment started on 25.10.2021 and ended on 01.11.2021 after covering the next two units i.e 3 and 4. Followed by, the model examinations from 01.12.2021 to 09.12.2021 were conducted after completion of the entire syllabus of each course and thus the students prepared for the university examinations of respective semesters. In the even semester, the same procedures were followed in the month of January, February and March/April.

Examination time table was prepared for internal tests and model examination accordingly. Answer scripts of students were valued within a week's-time after each test and model examination. Valued answer sheets were made transparent to the students, to get them aware of their performances with marks scored in each course in their internal tests and model examinations. The marks scored in internal assessment tests conducted by the departments of the institution and end-semester examinations conducted by the University were added together and finally the total scores were awarded to the students as per the university norms.

5.3.2 - Institution facilitates students' representation and engagement in various administrative, co-curricular and extracurricular activities (student council/ students representation on various bodies as per established processes and norms)

Every year, the college council members select the student representatives and form the committee. The Principal, a faculty member, two students from III year UG and two students from II year UG are President, Vice-President, Chairperson and Secretary, and joint-secretaries respectively. The class representatives along with the office bearers of various associations are selected by the head and the faculty members of the departments concerned. The college union encompasses the student - representatives and the office bearers of various associations for this year also. Subsequently, the inauguration of the college union and its allied associations were organized. Usually an eminent orator is invited as the chief guest and the representatives of the students' union and its allied associations administer an oath to discharge their duties effectively. These student-representatives share their views for enhancing the programmes of the institution such as welcoming the freshers, extending farewell to the out-going students, organizing competitions, association and cultural activities, seminars, conferences, workshops and symposia. They ensure discipline on campus and represent the views and grievances of the students to authorities concerned. The Represented grievances are redressed positively after panel discussions. Programmes for overall

development of stakeholders like cultural events, social activities and community services are organized through the student council.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

As the institution has an organizational chart flowing responsibility and accountability from top-level to lower-level coverage with a decentralized and participative management system for continuous improvement, Participatory management is followed in both academic and administrative aspects. All the heads of the departments assume responsibilities to achieve the vision and mission of the institution through determining, coordinating and conducting the activities of respective departments in co-operation with members of faculty keeping pace with their departments' vision and mission. The class advisors take up the allotted classes to ensure the fulfillment of the academic requirements of students in each department. The student representatives are motivated by the class advisors, members of faculty and the Heads of the department to elaborate their opinions for enhancing teaching learning and administrative processes, adhering to the vision and mission of the institution.

Non-teaching staff are also provided freedom and responsibility to increase the accuracy of the administrative and financial functions in the college. The ideals of all teaching and non-teaching staff are collected and utilized for the smooth functioning of the institution.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

IQAC prepares strategic plans for deployment each year for overall development of the institution. Each department also prepares action plans & achieve them. The IQAC advices the faculty members to focus on workshops, conferences & seminars on functional & allied areas of the respective disciplines. While organizing the programmes on current trends, the departments are requested to invite resource persons with high profile. Faculty members are encouraged to participate and present papers in international conferences & seminars. In order to motivate the spirit of participation & leadership skills, the inter and intra-department competitions were planned & conducted.

Activities of associations, cells, clubs & committees are to be conducted in such a way that they meet the demands of the society. All the departments are requested to engage in community participation activities as extension activities. Internal audit is conducted once in a year using an exclusive format among departments by deputing internal auditors to analyze the present status of activities & to review the existing system of governance in order to restructure the mechanisms, to boost up the forthcoming activities for deployments in academic & administrative areas. The institution follows decentralized pattern of shouldering responsibilities to discharge the duties effectively.

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

The college governing committee members take policy decisions regarding academic and administrative affairs of the institution. The Principal brings to the knowledge of the management regarding the requirements of members of faculty and students that contribute to the growth of the institution. The Principal of the institution assumes responsibility for the academic as well as administration processes and the same is supported by the constituted college committees. Heads of the departments coordinate the activities of

the departments relating to teaching-learning process. Members of faculty handle the allotted classes and facilitate the spirit of the learners. Initially students-counseling is done by the class advisor based on the needs. The grievances raised by the students are redressed following the proper channel of communication. In addition, various bodies, cells, clubs and committees carry out the respective well-structured activities after conducting meetings and passing resolutions through proper channels. In government-aided wing, the members of faculty and on teaching staff are recruited as per state government norms. Institutional norms are followed in recruiting both teaching and non-teaching staff under self-financing wing.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

Institution has mechanisms for solid, liquid and E-waste management. Initially, degradable and non-degradable solid wastes are segregated and are sent to the municipal corporation separately for disposal. Subsequently, since the year 2016, the solid wastes are handed over to M/s.Ramky Energy and Environment Ltd., Salem and disposed in association with J.K.K.Nataraja College of Pharmacy. The agency concerned treats the wastes in accordance with the Government of India- Waste Management Rules, 1998, meeting out the regulations of Tamil Nadu Pollution Control Board to avoid the pollution and protect the green environment. The residual chemical liquid waste from the chemistry laboratory goes to sink where suspended matters are removed and toxicity and hazardous textures are diluted after proper treatment. The chemical-removed water is used for plants. E-wastes are disposed off as scrap.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Best practice 1: Design Thinking

Title: Design Thinking

Objective of the practice: To integrate the interests of participants through group discussions to find solutions for the existing problems as a strategic tool for academic, administrative and business transformations.

The context: To offer e-platforms for the contemporary solutions for the problems identified by the participants.

The practice: To carry out the design thinking pentagon strategy i.e. empathize, define, ideate, prototype and test through online mode.

Evidence of success: Each team took problems and found solutions after online brainstorming.

Problems encountered and Resources required: The design methodology was not clearly understood by the students initially.

Best practice 2: Journal Club

Title: Journal Club

Objective of the practice: To review and disseminate about the innovations in different disciplines/sectors/fields by the students as the knowledge-sharing practice.

The context: To motivate the practice of self-dependency and comprehensive learning.

The Practice: To assemble to share the assimilated ideas on regular basis.

Evidence of success: To take up their project works, entrepreneurships, corporate and bureaucratic positions, policy making and implementation platforms.

Problems encountered and Resources required: Few online-sessions were not effective being presenters' unpreparedness. To encounter these, the presenters were asked at least a day before their presentation.
